What is neurological disorders?

“Neurological disorders are diseases of the central and peripheral nervous system. In other words, the brain, spinal cord, cranial nerves, peripheral nerves, nerve roots, autonomic nervous system, neuromuscular junction, and muscles. These disorders include headache vertigo, epilepsy, speech disorders, Alzheimer disease and other dementias, stroke, migraine and other headache disorders, multiple sclerosis, Parkinson's disease, neuro-infections, brain tumours, traumatic disorders of the nervous system such as head injury and spine injury, and neurological deficiency disorders as a result of malnutrition.”
